**NACA Statement on President Trump's Air Traffic Control
Proposal**

June 5, 2017

Representatives of National Air Carrier Association (NACA) were at the White House, today, for President Trump's announcement concerning the overhaul of our nation's air traffic control (ATC) system.

NACA has long been an advocate of modernizing the U.S. ATC system and providing a stable funding stream. Many nations have had success using a non-profit ATC system to modernize, while meeting the highest possible safety standards. Our member airlines believe this approach has great merit, and we will carefully review details of emerging legislation.
